

## **JUNE MEETING**

**Learn about geodes at our June 14<sup>th</sup> meeting.** Howard Gordon will be joining us at our June meeting to talk about geodes, those mysterious treasures lined with crystals. His presentation on June 14<sup>th</sup> will address the three types of geodes, based on their method of formation, that typically are found in rock shops. His emphasis will be on geodes found in extrusive volcanic rocks."

The meeting is in the North Community Room at Frasier Meadows, 350 Ponca Place, Boulder, CO 80303, starting at 7:00 pm. As you enter Frasier Meadows, just ask the receptionist for directions.

## **JULY MEETING**

Our July 12<sup>th</sup> meeting will be the **annual specimen bagging party**, where we put specimens and labels in small plastic bags for filling grab bags at the club picnic. The meeting will be at the home of Karen Manley and Fred Hall, located at 4561 47th St., Boulder, 80301 (approximately one mile north of Jay Road on 47th Street). The bagging starts at 7:00 pm and the club will provide refreshments.

## LAPIDARY LAB SPACE NEEDED

Our club has several saws, a Genie, and other lapidary equipment. Some of this equipment is scattered in club members homes, while other equipment is in storage. Many of you have indicated an interest in learning lapidary skills and using the equipment. Ideally, a club "Lapidary Lab" would be a great place to have this equipment available to club members and to teach lapidary skills. Years ago, equipment was set up at Charlotte Morrison's house, and members could use the equipment one night a week.

To reestablish this, we need a space to set up the equipment for our members' use. If anyone has space in a garage or other building that you would be willing to let the club use for our new lapidary lab, please contact Tally O'Donnell at [phantom@indra.com](mailto:phantom@indra.com). The club would be willing to cover utility costs.
