

Field Trip

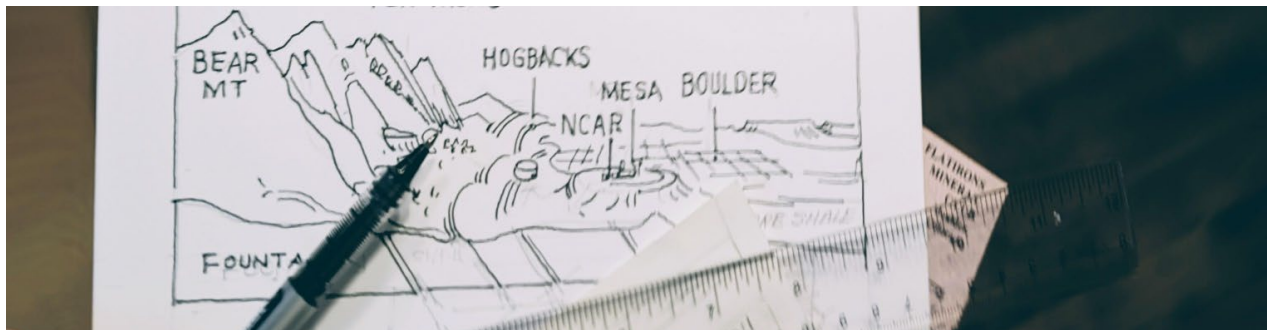

Saturday, July 15, 2023, NCAR BOULDER, 10:45 AM - 12:30 PM

Join other club members and the public for a unique FMC field trip at an iconic location- the NCAR Labs at Roberts Mesa in Boulder. Bring your neighbors and pals along to join us and introduce them to the wonders of our local geology.

We'll walk along the mesa and nearby hogbacks to decode them and reveal the geologic history here. We'll talk about geology, architecture, and take in expansive views. Bring a bagged lunch, bring some friends, and have some fun.

Please sign up on the FMC web site (<https://flatironsmineralclub.org/>) in the Field Trip section.

A special FMC NCAR geology field guide will be released on this trip!

When: Saturday July 15 10:45 AM - 12:30PM

Where: NCAR Labs at Roberts Mesa (Take Table Mesa Road)

Trip Leader: Will Rehm

Contact: +1 (212) 300-6331

Notes: Bring a bagged lunch and have lunch at 12:30 PM on the shaded NCAR terrace with stunning views of Rocky Flats.

This is a moderate level hike of less than 2 miles total length with little elevation gain.
