

Dear FMC members,

Our Tuesday, March 12, meeting is a 1-hour **History Channel video production** with brief stops and discussions about the current thoughts of how the Grand Canyon was formed. (Hint: The immense Grand Canyon we see today is less than 6 million years old.)

The meeting starts at 7:00 pm in Barker Hall at Mountain View United Methodist Church, 355 Ponca Place in Boulder.

Mark your calendars to attend this interesting program.

Gerry Naugle
Program Chair
