

## Western Wyoming Fossil Field Trips

The FMC has dual field trips to Kemmerer, Wyoming, for world-class fossil fish, insects, leaves, and more, and Wamsutter, Wyoming, for Turritella Agate and stromatolites.

### Kemmerer, WY Fossils

**Locations:** [Fossil Butte National Monument](#) & [Fossil Safari](#), Kemmerer, WY

**Dates:** June 27- 28, 2025

**Time:** Arrive at the Fossil Butte National Monument Visitor Center by mid-afternoon, June 27th. At 3:00 PM, we'll see a fossil preparation demonstration in the lab, followed by a private ranger talk at 4:00 PM.

**Events:**

- Educational programming at [Fossil Butte National Monument](#) - Fri, June 27th
- All day Fossil Collecting at [Fossil Safari](#) - Sat, June 28<sup>th</sup>

**Cost:** This is an FMC-subsidized trip. It costs \$37.50 per person (Adult or child), and a nonrefundable payment is required.

### **Wamsutter, Wyoming Turritella Agate & Stromatolites**

**Location:** Wamsutter, WY

**Date:** Sunday, June 29, 2025

**Time:** 11:00 AM

**Event:** For those on their way home from Kemmerer on Sunday or those who want to join us for the day, join us to collect 50-million-year-old fossils. The first stop will be to collect so-called Turritella agate, and the second to collect stromatolites. Both are preserved as silica and are beautiful when cut and polished.

**Note:** *If you are interested in both field trips, you must sign up for both. Or you can sign up for one field trip.*
